Seminar Series 1: Systems thinking approach to Mental Health planning

Wednesday 9 - Friday 11 August

Registration
For more information and to register follow the link below (places are limited)

cmhr.anu.edu.au/news-events/upcoming-events

Cost
- $400 per Seminar or $500 for Seminar A and B (external ANU staff and students)
- Reduced price $70 per Seminar for ANU staff and students

Ever wondered how research informs mental health policy and planning?
The first two seminars in this inaugural CMHR Seminar Series are designed to provide participants with knowledge and skills in a systems thinking approach to mental health planning.

In the first seminar participants will learn how to use the Description, Evaluation and Classification of services for Long Term Care (DESDE-LTC) instrument in the assessment of mental health services. Participants will be provided with examples of the DESDE-LTC application internationally and nationally. The standard assessment of services facilitates territorial comparisons, which is crucial for evidence-informed health planning and resource allocation.

In the second seminar a series of lectures introduces participants to the application of classification systems in the Commonwealth Government and State/Territory Governments. Examples from State Government representatives will outline how policies are translated into mental health planning. This seminar explores a systems approach to mental health planning and provides a platform for moving forward.

Format
Both seminars will be held at the Australian National University, Canberra.

Seminar A: Mapping Mental Health Care using the DESDE-LTC Classification System (1.5 days)
9 August 2017, 09:00 – 17:00
10 August 2017, 09:00 – 13:00

Seminar B: Translating mental health care research into policy in the real world (1 day)
10 August 2017, 13:30 – 17:00
11 August 2017, 09:00 – 13:30

Who should attend?
- University academic staff, professional staff and students
- Government and non-government policy makers and advisors
- Community sector professionals
Centre for Mental Health Research: Seminar Series 1: Systems thinking approach to Mental Health planning

Date: 9-11 August 2017 (2.5 days)

Seminar A: Mapping Mental Health Care using the DESDE-LTC Classification System
9-10 August 2017 (1.5 days)

Venue: Centre for Mental Health Research
The Australian National University
Building 63 Eggleston Road
Acton, ACT

9th August (Day 1)

09:00-09:30  Introduction: A systems thinking approach to the evaluation of mental health care.
             Luis Salvador-Carulla

09:30-10:45  The DESDE-LTC System for coding and mapping mental health services
             Part I.
             Mencia Ruiz

10:45-11:15  Morning tea

11:15-13:00  The DESDE-LTC System for coding and mapping mental health services:
             Part II.
             Mencia Ruiz

13:00-13:30  Lunch (provided)

13:30-17:00  Use of DESDE-LTC: Guided cases.
             Mencia Ruiz and Maryanne Furst

10th August (Day 2 morning)

9:00-10:45  Use of Geographical Information Systems in mental health care.
            Nasser Bagheri and Jose A Salinas

10:45-11:15  Morning tea

11:15-12:00  The Atlas of Mental Health Care project. International development.
             Mencia Ruiz and Luis Salvador-Carulla

12:00-13:00  The Atlas of Mental health Care project. Implementation and practical experiences in Australia.
             John Mendoza and Maryanne Furst

13:00-13:30  Lunch (provided)
Seminar B: Translating mental health care research into policy in the real world
10-11 August 2017 (1 day)

Venue: Bob Douglas Lecture Theatre
       The Australian National University
       Building 62A Eggleston Road
       Acton, ACT

10th August (Day 2 afternoon)

13:30-14:00 Introduction
       Luis Salvador-Carulla

14:00-14:45 Accountability and evidence-informed mental health care planning.
       Sebastian Rosenberg

14:45-15:30 The implementation gap in eMHealth.
       Phil Batterham

15:30-15:50 Afternoon tea

15:50-17:00 Practical experiences in the use of modelling and smart Decision Support
       Systems in Mental health planning.
       Jose A Salinas and Jina Chung

11th August (Day 3)

09:00-09:45 An update on the WHO family of International Classification (WHO-FIC): Implications for mental health planning in Australia.
       Jenny Hargreaves

09:45-10:30 National Mental Health Service Planning Framework (NMHSPF) and its application in policy and planning in Australia.
       Harvey Whiteford

10:30-11:00 Morning tea

11:00-11:45 Translating national policies into local planning. A perspective from Capital Health Network- ACT.
       Julie Porrit and Lauren Anthes

11:45-12:00 Translating national policies into urban and rural State planning. A perspective from Western Australia.
       Daniel Rock

12:00-13:15 Round table: Bridging research, policy and practice. Experiences and challenges in the real world.

13:15-13:00 Seminar close
Seminar series 1. Seminars A and B Presenters

Ms Lauren Anthes  
Dr Nasser Bagheri  
Associate Professor Phil Batterham  
Ms Jina Chung  
Ms Maryanne Furst  
Ms Jenny Hargreaves  
Adjunct Professor Daniel Rock  
Assistant Professor Mencia Ruiz  
Adjunct Professor John Mendoza  
Ms Julie Porrit  
Dr Sebastian Rosenberg  
Assistant Professor Jose A Salinas  
Professor Luis Salvador-Carulla  
Professor Harvey Whiteford
